This template can be used for multiple purposes:

- It enables schools to effectively plan their use of the Primary PE and sport premium
- It helps schools to meet the requirements (as set out in guidance) to publish information on their Primary PE and sport premium
- It will be an effective document to support Ofsted inspections enabling schools to evidence progress in Physical Education (PE) and evidence swimming attainment, which forms part of the PE National Curriculum. We would recommend schools consider the Intent, Implementation and Impact of any spend, as examined within the Education Inspection Framework.

It is important that your grant is used effectively and based on school need.

Schools must use the funding to make **additional and sustainable improvements** to the quality of the PE, School Sport and Physical Activity (PESSPA) they offer. This means that you should use the Primary PE and sport premium to:

- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- Develop or add to the PESSPA activities that your school already offers.

**The Primary PE and sport premium should not be used to fund capital spend projects; the school's core budget should fund these. Further detail on capital expenditure can be found in the updated [Primary PE and sport premium guidance](#).**

The Primary PE and sport premium guidance, outlines 5 key priorities that funding should be used towards. It is not necessary that spending has to meet all the key priorities, you should select the priorities that you aim to use any funding towards.

Although completing this template is not a requirement for schools, schools are required to publish details of how they spend this funding. Schools must also outline what the impact this funding has had on pupils' PE and sport participation and attainment and how any spending will be sustainable in the future. **All funding must be spent by 31st July 2024.**

The Department for Education has worked closely with the Association for Physical Education (afPE) and the Youth Sport Trust (YST) to develop this template and encourages schools to use it. This template is an effective way of meeting the reporting requirements of the Primary PE and sport premium.

## Review of last year's spend and key achievements (2022/2023)

We recommend you start by reflecting on the impact of current provision and reviewing your previous spend.

Activity/Action	Impact	Comments
Development of play provision / school grounds to encourage inclusive physical and active play experiences for all children	Children across the school are engaging in a wider range of physical activities during break times, displaying positive physical, mental and emotional health	Further develop our play provision / school grounds to promote physical activity for all groups as part of our mental health and wellbeing strategy Continue to develop our ongoing outdoor learning programme to enhance outstanding provision
Curriculum planning further developed to include effective use of outdoor / Forest School provision	Clear identification of progression of knowledge / skills now in place for each year groups. Targeted Forest School groups - children displaying excitement and motivation to attend resulting in positive mental health and wellbeing. Activities bridging into family life	Further use Forest School trained staff to develop extra-curricular clubs programme with FS focus.

## Key priorities and Planning

DfE Vision for the Primary PE and Sport Premium: “ALL pupils leaving primary school physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport”

1	Forest school sessions for each year group across the year	Forest School activities often involve various physical activities such as walking, exploring, climbing, and other outdoor games. These activities contribute to students' regular physical activity, helping them to develop their gross motor skills, coordination, and overall fitness.	Participating in Forest School activities exposes children to the outdoors, nature, and physical movement. It promotes a healthy lifestyle by encouraging them to be active in a natural environment, which can contribute to their overall physical and mental well-being. Forest School provided a unique experience that goes beyond traditional PE lessons. It exposed our children to outdoor exploration, nature observation, and hands-on learning, broadening their understanding of physical activities beyond conventional sports.	Engaging children in outdoor activities like Forest School at a young age can help establish positive attitudes toward physical activity, encouraging them to adopt sustainable active lifestyles as they grow.
